Professional Summary

Results, driven self-taught Fullstack Web Developer and Founder of **BarupTech Solutions** with **4+ years** of experience building elegant, high-performance digital solutions. I specialize in crafting premium user interfaces, robust backend systems, and seamless payment integrations Paystack, Flutterwave, etc.

Proven expertise in delivering scalable web applications for hospitality, e-commerce, inventory management, fintech (VTU), and media sectors. Passionate about turning business ideas into functional, beautiful, and profitable digital products.

Professional Experience

Founder & Lead Fullstack Developer BarupTech Solutions 2023, Present, Calabar, Nigeria

- Founded and currently lead BarupTech Solutions, delivering end-to-end web solutions to clients across Nigeria.
- Designed and developed premium websites and SaaS platforms with focus on exceptional UI/UX and reliable performance.
- Key Projects Delivered:
 - **SavannaCrown Hotel**, Luxury hotel website with booking system, elegant design, and African hospitality feel.

- **Stcker360**, Smart inventory management system built for Nigerian businesses to track stock, sales, and reduce losses.
- **PulseWire**, Modern news and media portal with clean, fast-loading interface and real-time content updates.
- **VoltPay**, Complete VTU & Bill Payment platform (Airtime, Data, Electricity, TV Subscriptions, Education, Insurance, etc.) with secure transactions.
- **DeGrand Hotel, Barup Store, and SmartSummary SaaS** (as previously delivered).

Freelance Fullstack Web Developer 2019, Present | Calabar, Nigeria

- Developed responsive, SEO-optimized, and conversion-focused websites and web applications.
- Integrated secure payment gateways and built custom admin panels for easy client management.
- Mentored junior developers and maintained high client satisfaction rates.

Web Development Intern / Junior Developer 2020, 2022 | Remote

- Built full-stack applications using React, Laravel, Tailwind CSS, and MySQL.
- Gained hands-on experience in client requirement analysis and agile development.
